KEIGIO DESIGN S.L. - PRICELIST 2024

CONFIDENTIAL AND PROPRIETARY

This catalog is the property of KEIGIO DESIGN SL. Imitation or printing of its illustrations and partial or total configuration is prohibited without the express authorization of KEIGIO®. The company reserves the right to modify its design and structure. The company is not responsible for errors committed by third parties in translations or printing.

This catalog is crafted by the technical and design team of KEIGIO®.

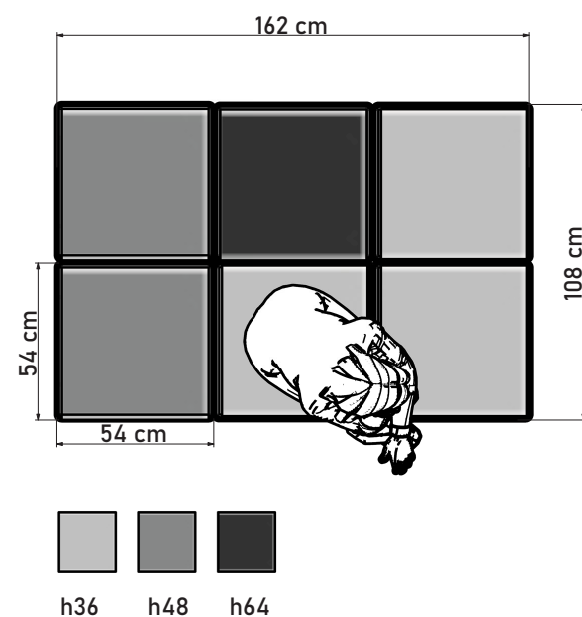

Reminder to Our Valued Customers:

We would like to remind our dear customers that the .pdf version of the PRICELIST 2024 is available on our website www.keigio.com. We encourage you to view it digitally or download it. This catalog is printed on FSC-certified paper.

FSC stands for Forest Stewardship Council, an organization dedicated to promoting sustainable forestry practices worldwide. Let's take care of our planet and be sustainable.

54X54 SYSTEM

The KEIGIO® 54x54 SYSTEM is a versatile and innovative furniture solution crafted from FSC certified wood materials, ensuring both sustainability and quality. It offers customizable finishes in Pine Marine Plywood, Lacquered MDF or MDF laminated with HPL.

54X54 SYSTEM is particularly hard and strong and suitable for a every kind of location as bars, restaurants, offices and commercial spaces and even schools.

With 54x54 SYSTEM, we have created something unique, a new concept that combines the classic office furniture with home furniture. It is extremely functional & flexible.

The WOODEN modules can have 5 different heights and two different systems for storing items such as laptops, notebooks, or cushions.

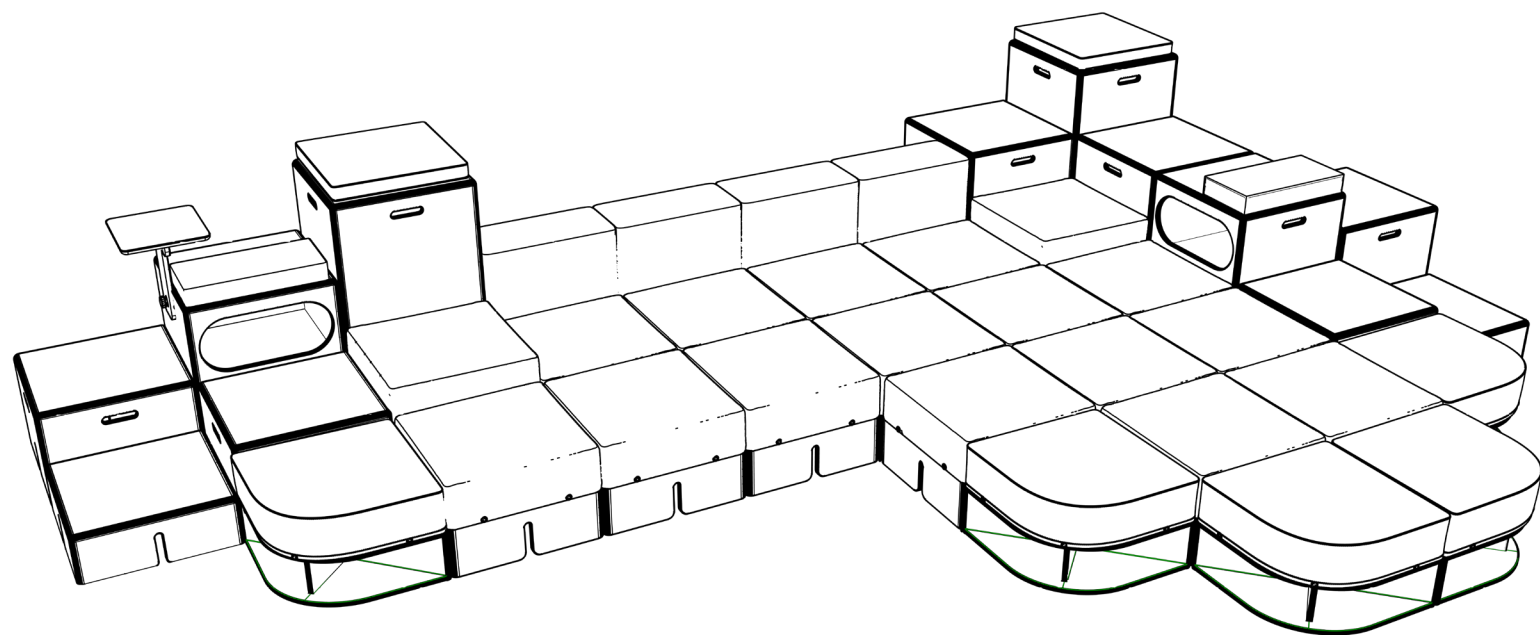

Then there are the SOFA PUFF modules, incredibly comfortable with their 6 cm of memory foam on top.

To enhance comfort and aesthetics, the system includes upholstered cushion pads that can be tailor-made to your preferences, with a selection of fabric, colors, and patterns.

MATERIALS

FSC Marine Pine Plywood, Lacquered MDF or laminated with HPL.

• Polyurethane and Viscoelastic Foam

KEIGIO SYSTEMS - FABRICS & COLORWAY

LASER N

FIDIVI*

LASER N

Compact fabric in united, two-coloured and three-coloured types. 58 colorways.

480 g/ml - 340 g/m²

100% Polyester Trevira CS

KEIGIO® SYSTEMS are characterized by using the highest quality materials on the market. An example is the fabric we have chosen for you.

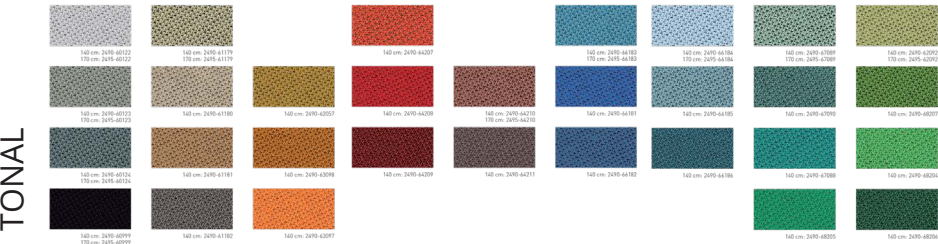

We are talking about a technical fabric, self-extinguishing, certified for office or contract use with a specific weight of 340 g/m². The producer is called FIDIVI, the Italian market leader. The model we have chosen is the Laser N 100% Polyester Trevira CS, while from GABRIEL we have selcted the products Cura and TONAL additions.

Certifications Oekotex and Euflower-Ecolabel, fully recyclable, resistant to abrasion (100,000 Rubs) and to color changes due to exposure to direct light. These fabrics offer warm, casual aesthetics, vibrant melange effects, soft, voluminous textures, comprehensive color ranges, high stretchability, making them perfect for office and lounge furniture.

They are also environmentally friendly, with 98% recycled post-consumer polyester, 99% post-consumer recycled polyester (in the case of GABRIEL TONAL) and 100% recyclable polyester.

Additionally, they hold the EU Ecolabel, STANDARD 100 by OEKO-TEX® certification, and meet Möbelfakta requirements, making them ideal for a wide range of applications.

TONAL

Gabriel®

TONAL

Tonal is made from recycled post-consumer polyester and has an excellent environmental profile.

99% post-consumer recycled polyester / 1% polyester

CURA

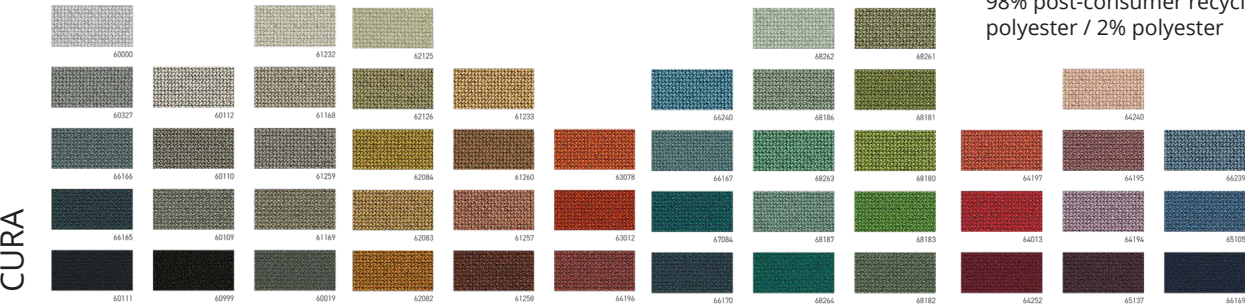

Cura is a multi-purpose, two-coloured upholstery fabric made from 98% post-consumer recycled polyester.

98% post-consumer recycled polyester / 2% polyester

KEIGIO® 36X36 and 54x54 SYSTEM use only polyurethane foams for its sofa system, which are known for their excellent comfort, elastic properties and good hydrolysis resistance. All our SOFA PUFF and floor cushion modules are surmounted by 60 mm of 50 Kg / m² viscoelastic material of the highest quality.

The viscoelastic material is a polyurethane foam with high self-shaping properties on a thermal basis (thermal sensitivity) and elasticity, which originates from studies in the aeronautical field (American Space Agency, NASA).

Environmental Commitment by KEIGIO DESIGN:

At KEIGIO DESIGN, we embody a profound commitment to environmental sustainability, reflecting our vision for a future in harmony with our planet. The following initiatives and practices underscore our dedication to reducing environmental impact and promoting an eco-conscious lifestyle through our furniture:

FSC Certified Materials:

We exclusively use FSC (Forest Stewardship Council) certified paper and wood for printing our catalogs and manufacturing our furniture. This certification attests to our commitment to sustainably managed forests, adhering to rigorous environmental, social, and economic standards.

Modular Design:

We design modular furniture that can be easily adapted or expanded, extending their lifespan and reducing the need for frequent replacements.

Digital Catalog and Paper Consumption Reduction:

We invite our customers to explore our catalog digitally on our website www.keigio.com and all our documents are available in a digital version on our website. This initiative not only provides convenience but also actively contributes to reducing paper consumption, thus supporting the conservation of forest resources.

Oekotex and Euflower-Ecolabel Certified Fabrics:

The fabrics we use are certified Oekotex and Euflower-Ecolabel. Completely recyclable or recycled and resistant to abrasion (100,000 rubs) and color changes due to direct exposure to light, these fabrics offer a warm and casual aesthetic. They are also environmentally friendly, with high percentages of post-consumer recycled polyester.

Responsible Disposal:

To ensure responsible disposal, we collaborate with Valdelia, a non-profit organization approved by the French Ministry of Ecological Transition. Founded in 2011, Valdelia collects and recycles non-business furniture waste. Financed through an eco-contribution included in the price of new professional furniture, it offers free services to communities, businesses, and associations, actively contributing to a circular economy and compliance with environmental and legal obligations. Your choice to purchase from us supports this sustainable commitment.

ECO-CONTRIBUTION EN FRANCE: FR374141_10OSBS

KEIGIO DESIGN est enregistré au Registre national des metteurs sur le marché d'éléments d'ameublement sous le numéro FR.

Ce numéro garantit que KEIGIO DESIGN, en adhérant à VALDELIA, est en conformité avec les obligations réglementaires qui lui incombent en application de l'article L541-10-6 du Code de l'Environnement.
